

2005 SUBJECT INDEX

- Adjuvant chemotherapy, for breast cancer, symptoms and distress with, 382
- Adolescents
cancer experiences of, 8
measuring physical symptoms in, 16
testicular self-examination and attitudes in, 256
- Adriamycin, symptoms and symptom distress with, 382
- African Americans, prostate cancer treatment outcomes of, 108
- Age, in post-breast cancer lymphedema signs and symptoms, 200
- Aging, in prostate cancer experience, 85
- Alternative treatment, in cancer patients in Turkey, 355
- Anxiety, in bone marrow transplant patients, 79
- Art, lived experience of, healing and, 285
- Attitudes
breast self-examination in Denmark and, 141
testicular self-examination and, 256
- Autologous hematopoietic stem cell transplant, quality of life after, 148
- Beck Hopelessness Scale, for cancer patients, 236
- Behavior change
breast self-examination teaching program and, 141
with smoking cessation interventions, 226
- Blood/marrow stem cell transplant (BMSCT), objective structured clinical examination for, 54
- Bone marrow transplant
family stress during, 363
quality of life after, 148
relaxation breathing exercises after, 79
- Bone pain, with adjuvant chemotherapy for breast pain, 382
- Breast cancer
age differences in signs and symptoms of, 200
chemotherapy-induced nausea and vomiting and functional status with, 249
health beliefs and, 372
information needs of women with in Malaysia and UK, 132
maternal, daughters' posttraumatic stress response to, 399
postoperative symptom distress in, 263
rehabilitation and spa therapy for, 390
screening for
education programs encouraging, 47
predictors of in Vietnamese women, 119
symptom profile for after radiotherapy, 210
symptoms clusters in across disease phases, 219
symptoms with adjuvant chemotherapy for, 382
- Breast cancer survivors
dance and movement program in quality of life of, 301
intention of in managing lymphedema, 446
long-term, health of, 415
randomized intervention study for, 70
- Breast self-examination
evaluating teaching program for in Denmark, 141
in Vietnamese women, 119
- Breathing exercise, in anxiety, depression, and leukocytes in bone marrow transplant patients, 79
- Brief Pain Inventory—Chinese version, in assessing pain intensity and caring behaviors, 331
- CA 15-3, with rehabilitation and spa therapy for breast cancer, 390
- Cancer care, information requirements in, 36
- Cancer experiences, of adolescents, 8
- Cancer recurrence, in breast cancer survivors, 70
- Cancer risk, health beliefs and in breast cancer patients, 372
- Cancer screening
increasing use of in hispanic women, 47
for ovarian cancer, depressive symptoms and, 325
predictors of in Vietnamese women, 119
- Cancer side effects, management protocols for, 62
- Cancer support groups, on Internet, 1
- Cancer survivors
dance and movement program in quality of life of, 301
long-term, health of, 415
randomized intervention study for, 70
- Care demands, for terminal patients, 241
- Caregivers
developmental stage and prostate cancer experience in, 85
objective structured clinical examination for competence of, 54
- Caring Assessment Report Evaluation Q-sort, in assessing pain intensity and caring behaviors, 331
- Caring behaviors, pain intensity and, 331
- CE tests
age differences in post-breast cancer lymphedema signs and symptoms, 208
health beliefs of women with and without breast cancer seeking genetic cancer risk assessment, 380
on information requirements for people with cancer, 45
in predictors of breast and cervical screening in Vietnamese women, 120
symptom clusters, 283
- Center for Epidemiologic Studies Depression Scale (CES-D) score, pre- and postscreening, 325
- Cervical cancer screening
education programs encouraging, 47
predictors of in Vietnamese women, 119
- Chemotherapy
for breast cancer
symptoms and distress with, 382
nausea and vomiting with and functional status, 249
neutropenia induced by
protocols for managing, 62
quality of life and, 167
- Children
family stress during hematopoietic stem cell transplantation in, 363
measuring physical symptoms in, 16
perceptions in cancer-related fatigue in, 27

- Chinese cancer patients, perceptions of favorable and unfavorable words conveyed by social support providers, 348
- City of Hope-Quality of Life Bone Marrow Transplant (COH-BMT), assessing post-transplant quality of life, 148
- Clinical oncology practice
concept analysis of symptom clusters and, 270
managing chemotherapy-induced neutropenia in, 62
- Cognitive impairment, in phases of breast cancer, 219
- Colorectal cancer survivors, long-term, health of, 415
- Communication
Chinese cancer patients' perceptions of, 348
in experience of patients' pain, 340
Comorbid health conditions, in older, long-term cancer survivors, 415
Complementary alternative medicine, in Turkey, 355
Concept analysis, of symptom clusters, 270
Conference calendar, 69, 140, 199, 309, 398
Content analysis
of quality of life after radiotherapy for localized prostate cancer, 310
Cooperative care, objective structured clinical examination in, 54
Coping styles, in Chinese nasopharyngeal cancer patients after hospitalization, 179
Couples, developmental stage and prostate cancer experience in, 85
Creativity, healing and, 285
Cross-cultural nursing research, on information needs with newly diagnosed breast cancer patients in Malaysia and UK, 132
Cutaneous melanoma, quality of life with interferon therapy after radical surgery for, 172
Cyclophosphamide, symptoms and symptom distress with, 382
- Dance, in quality of life in breast cancer survivors, 301
- Death, pain and desire for in terminally ill patients, 318
- Denmark, teaching breast self-examination in, 141
- Depression
in bone marrow transplant patients, 79
prescreening and postscreening symptoms of, 325
Developmental life stage, prostate cancer experience and, 85
Dying, awareness of in terminal patients, 241
- Education programs, increasing cervical and breast cancer screening in hispanic women, 47
- Ethnography, of humor and palliative care, 292
- Family history, of breast cancer patients, 372
- Family stress, during hematopoietic stem cell transplantation of pediatric patients, 363
- Fatigue, cancer-related
in children and young people, 27
in phases of breast cancer, 219
with radiotherapy for breast cancer, 210
Favorable words, Chinese cancer patients' perceptions of, 348
Feminist analysis, of Internet cancer support groups, 1
Functional status, chemotherapy-induced nausea and vomiting and, 249
- Genetic cancer risk assessment, health beliefs and in breast cancer patients, 372
Germ-free isolation, parental stress in, 363
Greek Brief Pain Inventory, in terminally ill patients, 318
- Head and neck cancer, smoking cessation with, 226
Healing, lived experience of art and, 285
Healthcare beliefs
in breast cancer patients seeking genetic cancer risk assessment, 372
breast self-examination in Denmark and, 141
in Vietnamese women, cancer screening and, 119
Healthcare staff
experience of patients' pain, 340
perceptions of cancer-related fatigue in children, 27
ratings of caring behaviors by, 331
Hematopoietic stem cell transplant
of pediatric patients, parental stress in, 363
quality of life after, 148
relaxation breathing exercises after, 79
Hermeneutic study, of living experience of art and healing, 285
Hispanic women, promoting cervical and breast cancer screening in, 47
Home healthcare
for multiple myeloma, 158
Hopelessness, social support and, 236
Hospice care, humor in, 292
Human relationships, humor in, 292
Humor, in palliative care, 292
Hyperthermia, with rehabilitation and spa therapy for breast cancer, 390
- Impact of Events Scale, measuring daughters' posttraumatic stress response to maternal breast cancer, 399
Information requirements
of newly diagnosed breast cancer in Malaysia versus UK, 132
of people with cancer, 36
- Inpatient oncology unit, experience of patients' pain on, 340
- Instruments
for measuring symptoms in children and adolescents with cancer, 16
- Interferon, quality of life evaluation with, 172
- Internet
cancer support groups on, 1
as source of cancer information, 36
- Interviews
in evaluating self-administration of pamidronate in multiple myeloma, 158
of men in early stage prostate cancer, 99
- Japan, breast cancer support groups in, 70
Job satisfaction, of oncology nurses, 193
- Knowledge
about breast cancer, self-examination and, 141
about testicular cancer, self-examination and, 256
- Lay caregivers, objective structured clinical examination in determining competencies of, 54
Leukocyte count, in bone marrow transplant patients, 79
Life experience
of breast cancer survivors, 446
family stress and during hematopoietic stem cell transplantation, 363
Lifestyle change, with early stage prostate cancer, 99
Lived body, in adolescents with cancer, 8
Longitudinal study
of postoperative symptoms distress in breast cancer patients, 263
of symptoms with radiotherapy for breast cancer, 210
Lymphedema
intention in management of, 446
post-breast cancer, age differences in signs and symptoms of, 200
- Malaysia, information needs of women newly diagnosed with breast cancer in, 132
Mammography, in Vietnamese women, 119
Maternal breast cancer, daughters' posttraumatic stress response to, 399
Media, as source of cancer information, 36
Media news, 84, 166, 207, 300, 414
Minimum data set, of nursing home residents with cancer at admission, 406
Minority-Based Community Clinical Oncology Program, increasing cervical and breast cancer screening, 47
Mood
in phases of breast cancer, 219
with rehabilitation and spa therapy for breast cancer, 390

- MOS-SF-36 scores, for post-bone marrow transplant quality of life, 148
- Movement program, in quality of life in breast cancer survivors, 301
- Multiple myeloma, pamidronate for, 158
- Nasopharyngeal cancer, quality of life and coping styles with, 179
- Naturalistic inquiry, meeting information requirements, 36
- Nausea and vomiting, chemotherapy-induced, functional status and, 249
- Neoplasm, prostate, racial differences in treatment outcomes of, 108
- Neutropenia, chemotherapy-induced protocols for managing, 62
- quality of life and, 167
- Nurse-patient relations, in smoking cessation intervention, 226
- Nursing home residents, analyses of cancer status of, 406
- Objective structured clinical examination (OSCE), identification and validation of competencies for use in, 54
- Oncology nurses
- quality of life of, 193
 - in smoking cessation intervention, 226
- Oncology nursing practice, stress in, 187
- Outpatient care, for multiple myeloma, 158
- Ovarian cancer early detection program, prescreening and postscreening depressive symptoms in, 325
- Paclitaxel, symptoms and symptom distress with, 382
- Pain
- caring behaviors and intensity of, 331
 - desire for death and in terminal patients, 318
 - unlicensed staff experiences with, 340
- Palliative care
- humor in, 292
 - pain and, 318
 - for terminal patients, 241, 318
- Pamidronate, ambulatory self-administration of in multiple myeloma, 158
- Papanicolaou test, in Vietnamese women, 119
- Parents
- perceptions of cancer-related fatigue in children, 27
 - stress on during pediatric hematopoietic stem cell transplantation, 363
- Patik : t education, objective structured clinical examination in, 54
- Patient information, sources of, 36
- Patient narratives, on post-radiation therapy life, 310
- Perceived Social Support From Family Scale, for cancer patients, 236
- Performance evaluation, objective structured clinical examination in, 54
- Phenomenology
- of living experience of art and healing, 285
 - of lymphedema management in breast cancer survivors, 446
- Physical symptoms, measuring in children and adolescents, 16
- Posttraumatic stress, in response to maternal breast cancer, 399
- Predictors, of breast and cervical cancer screening in Vietnamese women, 119
- Professional practice, stress in, 187
- Profile of Mood States, after radiotherapy for breast cancer, 210
- Promotora, increasing cervical and breast cancer screening, 47
- Prostate cancer
- developmental life stage and couples' experience of, 85
 - early stage, qualitative analysis of interviews on, 99
 - localized, quality of life after radiotherapy for, 310
 - long-term survivors of, 415
 - treatment outcomes in, racial differences in, 108
- Psychological status, after radiotherapy for breast cancer, 210
- QLQ-C30 questionnaire, after interferon therapy and radical surgery, 172
- Qualitative analysis
- of Chinese cancer patients' perceptions of communication by support providers, 348
 - in early stage prostate cancer, 99
- Quality of life
- after external beam radiotherapy for prostate cancer, 310
 - after hematopoietic stem cell transplant, 148
 - chemotherapy-induced neutropenia and, 167
 - in Chinese nasopharyngeal cancer patients after hospitalization, 179
 - dance and movement program and, 301
 - with interferon therapy after radical surgery for cutaneous melanoma, 172
 - measuring in children and adolescents with cancer, 16
 - of oncology nurses, 193
 - with rehabilitation and spa therapy for breast cancer, 390
- Race, in prostate cancer treatment outcomes, 108
- Radical surgery, interferon therapy after, quality of life evaluation with, 172
- Radiotherapy
- external beam, quality of life after, 310
 - for nasopharyngeal cancer, quality of life and coping styles after, 179
 - smoking cessation intervention with, 226
 - symptoms and self-care activities with, 210
- Randomized clinical trials
- for breast cancer survivors in Japan, 70
- Rehabilitation, spa therapy and for breast cancer, 390
- Relaxation breathing exercise, in anxiety, depression, and leukocytes in bone marrow transplant patients, 79
- Self-care activities, with radiotherapy for breast cancer, 210
- Self-concept, in adolescents with cancer, 8
- Short-term support groups, breast cancer recurrence in, 70
- Smoking cessation, in head and neck cancer patients, 226
- Social support
- hopelessness and in cancer patients in Turkey, 236
 - perceptions of favorable and unfavorable words conveyed by, 348
- Spa therapy, rehabilitation and for breast cancer, 390
- Spirit body healing, study of, 285
- Spirituality
- in experience of early stage prostate cancer, 99
 - healing and, 285
- Spouses, developmental stage and prostate cancer experience in, 85
- Stress, in oncology nursing practice, 187, 193
- Support groups
- breast cancer recurrence in, 70
 - on Internet, 1
- Supportive care, for chemotherapy-induced neutropenia, 62
- Surgical treatment, symptoms and symptom distress with, 382
- Sweden, testicular self-examination and attitudes in, 256
- Symptom clusters
- in breast cancer across disease phases, 219
 - concept analysis and clinical implications of, 270
- Symptom distress
- postoperative, 263
 - in women undergoing current treatment modalities, 382
- Symptoms
- in adolescents with cancer, 8
 - management of, concept analysis and, 270
 - measuring in children and adolescents, 16
 - of post-breast cancer lymphedema, age differences in, 200
 - with radiotherapy for breast cancer, 210
 - in women undergoing current treatment modalities, 382

- Taiwan
 - parental stress in germ-free isolation of pediatric patients in, 363
 - postoperative symptom distress in newly diagnosed breast cancer patients in, 263
- Terminally ill patients
 - awareness of dying in, 241
 - pain and desire for hastened death in, 318
- Testicular self-examination, attitudes and, 256
- Tobacco use cessation, in head and neck cancer patients, 226
- Training program, for breast self-examination in Denmark, 141
- Treatment
 - outcomes in prostate cancer, racial differences in, 108
- Turkey
 - status of alternative cancer treatment in, 355
- Unfavorable words, Chinese cancer patients' perceptions of, 348
- United Kingdom, information needs of women newly diagnosed with breast cancer in, 132
- Unlicensed staff, experience of patients' pain, 340-
- Vietnamese women, predictors of breast and cervical screening in, 119
- Vomiting, chemotherapy-induced, functional status and, 249
- Watchful waiting, in early stage prostate cancer, 99
- Way of being, of adolescents with cancer, 8
